12	12 $\frac{3}{16}$	15 $\frac{3}{16}$	1 $\frac{1}{2}$	$\frac{3}{16}$	13 $\frac{3}{16}$	$\frac{3}{8}$	12
14	14 $\frac{3}{8}$	17 $\frac{3}{8}$	1 $\frac{1}{2}$	$\frac{3}{16}$	15 $\frac{3}{16}$	$\frac{3}{8}$	12
16	16 $\frac{1}{4}$	19 $\frac{1}{4}$	1 $\frac{1}{2}$	$\frac{3}{16}$	18 $\frac{1}{4}$	$\frac{3}{8}$	16

electric remote control panel

Provides simple, push-button remote control from any area in your plant. Entire dust-tight panel, including starter for motor, prewired for fast, easy installation.

Features easy-to-read dial for positioning turnspout... push-button for starting distributor... lights and label tags for each station... hinged cover for quick access if maintenance or servicing are required.

Explosion-proof panel optional.

lower control stand

For use with manual turnhead, enables operator to provide positive control of the inner rotating spout from any distance by using rust-proof galvanized aircraft cable and two control devices.

A hand-operated indexing wheel rotates the inner spout. Another device, a floor-mounted foot pedal, releases the inner spout mechanism, enabling it to be turned to any of the other outlet spouts.

NOTE: Construction features and specifications subject to change without notice.
